

Dear Neighbors:

Sept. 30 marks the end of your Council's fiscal year. Thanks to a whopping 29% increase in membership and a record Fourth of July, as well as other items, we recorded a surplus of over \$3200. We have some exciting plans for these funds. At our Annual Meeting on October 14, we will announce these plans, which will be funded by the Council and a large grant from Alderman Melissa Mershon. I hope you will make plans to join us and have "Dessert with the Mayor".

The Annual Meeting will mark the end of my term as president of the Council. As a relative new-comer to Crescent Hill, I am still amazed at the vitality of this neighborhood, and the large number of residents who play an active role in its betterment. Its no wonder we live in the best neighborhood in Louisville. I know our next president will receive the same level of support that I have, and I hope he enjoys the job as much as I did.

Reservoir Park Update

The Reservoir Park Centennial Committee met on September 10th. Plans were made to compile a Centennial Commemorative Directory. Neighbors will be asked to complete a form which will be circulated and collected by members of our committee. Each household will be invited to participate and be a part of the directory.

The committee has been in contact with Operation Brightside in regards to their involvement in the beautification of our neighborhood in preparation for our celebration next year.

The Frankfort Avenue Business Association has generously offered its support in the development of our centennial project. More information will be available about this in the future.

We again invite neighbors to become involved in this exciting project. Our next meeting will be, Thursday, October 10th. For information contact Pat Schmidt, 896-4516 or Sunny Cornell, 893-9228.

Centennial Committee.

Breeders' Cup Bash Returns to Galleria

Mayor Jerry Abramson invites all Crescent Hill residents to be part of Breeders' Cup excitement as the popular Breeders' Cup Bash returns to the Louisville Galleria Atrium, October 30th. From 8:00 pm til midnight, guests will enjoy racing and entertainment in a "recreated" Churchill Downs, complete with twin spires, flower beds, pari-mutuel windows and a winners' circle. Bet on seven cinema races from Churchill Downs with Breeder\$ Cup Buck\$ (bearing the likeness of Mayor Abramson and County Judge/ Executive Dave Armstrong) and use your winnings

to bankroll a bid on seven fabulous prize packages. Dance to the Monarchs and sample international specialties from downtown restaurants.

The first Bash in 1988 was a sell-out and this year's \$20 tickets should go fast when they go on sale October 1st at the Kentucky Center for the Arts Box Office (584-7777). Or you can receive free admission by being a BASH volunteer. Limited volunteer openings are available by calling Bash chairman (and Crescent Hill resident) Susan Miller at 635-3733. Don't be left at the post!

Dear Crescent Hill Neighbor:

I would like to notify you of two dates for you to mark on your calendar. Mayor's Night Out for First Ward residents is scheduled for Monday October 7, 1991, 7:00 p.m. at Klondike Elementary, 3807 Klondike Lane. This location is handicapped accessible and offers plenty of free parking. The Mayor and I will be on hand to answer your questions and listen to your concerns. Also available will be the directors of the city departments and representatives from the local utility companies and TARC. This is an excellent opportunity to ask questions and raise concerns directly with the responsible departments and agencies. If you need directions to Klondike Elementary please call my office at 625-3100.

On October 18, 19, and 20, 1991, residents will be able to bring their used Yellow Pages to any Kroger

store in Louisville and Jefferson County between the hours of 12 noon to 5:00 p.m. and leave them in specially marked containers in the Kroger parking lots.

The used directories will be delivered to a company that will shred and pulverize them into a paper fluff and then sold to a distributor as hydro-seeding mulch. New yellow pages will be distributed beginning in mid-September, so please hang onto your used Yellow Pages and help reduce the waste stream.

Sincerely

Melissa

First Ward Alderman
625-3100

Library District Issue

On November 5 the citizens of Jefferson County will have the opportunity to vote yes or no on the creation of a library district in our county. This is a very important issue and deserves our careful attention.

The library district, if approved by voters, would be authorized to collect a tax of \$13.25 per \$10,000 of earned income. The tax would be levied on all persons who are on a payroll in Jefferson County whether they live in the county or not. Persons who are not on a payroll (for instance retired persons) will not be taxed. The tax rate cannot be altered except by another referendum. The taxes raised would be devoted entirely to the maintenance and improvement of the Louisville Free Public Library system which extends through Jefferson County. Over 100 counties in Kentucky already have created such library districts for the support of their library systems.

The basic questions before us as voters are what kind of library system do we want and how shall we finance it? Between now and election day it is important for every citizen to become informed about our current library system, its needs, its strengths, its weaknesses. A visit to the library might be a place to begin. Try to become informed as best you can and be prepared to vote on November 5.

Invitation to Visit Library

Between October 14 and November 4 the Crescent Hill Branch of the Louisville Free Public Library will have a special display of hoped-for improvements of the library. All are invited to come by and see what the future might look like if the library system is able to complete a ten-year plan that has been adopted.

Curbside Recycling Expands in October

If you're one of those Crescent Hill residents who has been waiting for curbside recycling to reach you, the wait is almost over. A large number of Crescent Hill residents living north of Frankfort Avenue will be added to the program during the week of October 21.

Under the program, which is already in existence in all other parts of Crescent Hill, residents are provided with a bright orange recycling bin in which they can toss all recyclables: newspapers, aluminum cans, plastic containers, tin cans, and glass jars and bottles. The bins are placed at curbside by the residents on a designated day once each week and the contents are collected by a special truck.

Residents of multifamily dwellings with five or more units are not included in the program but may continue using recycling drop-off centers, including the one located behind the fire station at Frankfort and Franck Avenues.
